Commissioner:

Payment of the issue fee for the above-identified application is being made concurrently herewith.

Enclosed herewith are six (6) Replacement sheets of formal drawing(s) (FIGS.1-6). Although the Examiner did not require submission of formal drawings, it is respectfully requested that the attached formal drawing Replacement Sheets be substituted for the informal drawings originally filed. According to 37 CFR §1.121(d), the enclosed formal drawings are labeled "Replacement Sheet" in the top margin.

In preparing the formal drawings, a minor correction to FIG. 5 has been made as described further below. According to 37 CFR §1.121(d)(1), a marked-up version of the corrected drawing for FIG. 5 is also filed concurrently herewith. According to 37 CFR §1.121(d)(1), the enclosed marked-up version of the corrected drawing for FIG. 5 is labeled "Annotated Sheet" in the top margin and includes annotations indicating the below-described correction.

In FIG. 5, element number 12 was incorrectly illustrated as pointing to an element described in the Specification as "...a rotatable clip 62" See, e.g., Specification, p. 16, line 1 (referring to the corresponding element in FIG. 6). In the formal drawing for FIG. 5, the element that was previously labeled with element number 12 has now been correctly labeled with element number "62." According to 37 CFR §1.121(d)(1), the

enclosed marked-up version of the formal drawing for FIG. 5 includes annotations indicating the above-described element numbering correction. It is respectfully submitted that the above-described minor correction to FIG. 5 does not add any new matter.

As previously mentioned above, payment of the issue fee for the above-identified application is being made concurrently herewith. It is respectfully requested that the concurrently filed formal drawings be reflected in the patent that issues.

Respectfully submitted,
